Profile

Senior Unity Developer with **5+ years of experience** building, optimizing, and scaling **mobile games** across hyper-casual, hybrid-casual, and mid-core genres. Strong expertise in **C#, gameplay systems, Unity editor tooling, modular architecture, performance optimization, and LiveOps**.

Employment

Senior Unity DeveloperFeb 2023 - Present

Super Huge Studios, Bangalore

HyperCore (Internal Unity Framework)

- Designed and developed **HyperCore**, a reusable Unity framework for rapid prototyping and production of hyper-casual games.
- Implemented **lightweight Dependency Injection**, analytics handling, sensory managers, lifecycle helpers, utilities, and extensions.
- Reduced new project setup time significantly by providing standardized templates and tooling.
- Led architectural decisions to ensure scalability and maintainability.

CatWool – Hyper-Casual Mobile Game

- Designed and implemented core gameplay logic and **bot simulation systems**.
- Built animation-view bridges to enable **fast reskinning** and theme changes.
- Developed **procedural level generation** logic.
- Mentored junior developers and guided UI/view implementation.

Solitaire Candy World (Hybrid Casual)

- Built core gameplay using **Factory and Command patterns**, enabling robust undo functionality.
- Designed **modular systems** for rapid addition of new mechanics.
- Implemented **retention features, IAP improvements, and LiveOps support**.
- Created **EasyBundle**, a modular asset bundle loading system for prefabs.
- Optimized UI performance and reduced draw calls.
- Developed an **AI-assisted level design tool** to support large-scale content generation.

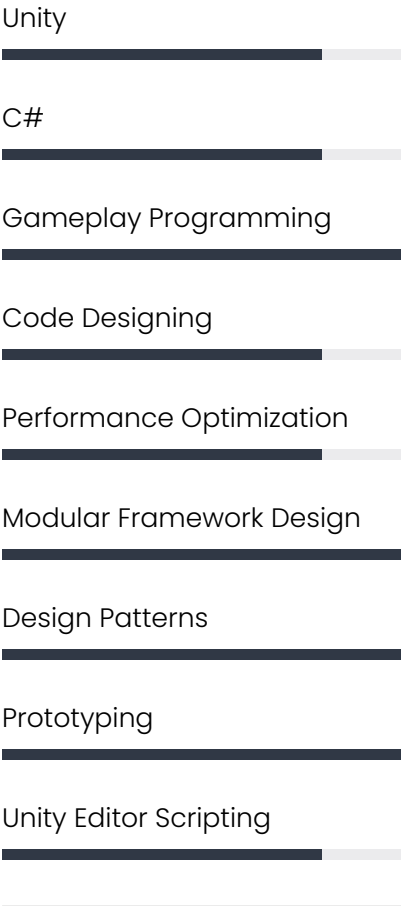

ChessBlitz – 2D Chess Puzzle Game

- Implemented progression systems and in-game economy.

Skills

Languages

- Built modular **IAP and subscription frameworks** for Android & iOS.
- Worked on PvP multiplayer front-end integration.
- Implemented user registration and player profile systems.

Freelance

Sep 2022 - Dec 2022

Vedantu, Bangalore

- Developed gamification features for a learning application.
- Integrated third-party SDKs including **Firebase / Firestore and Ads**.
- Worked with **Zenject** and **MVP architecture**.
- Performed feature modifications and optimizations on an existing codebase.

Freelance

Aug 2022 - Sep 2022

TVS - Metaverse

- Worked on an open-world Unity project involving bike reveals and missions.
- Implemented cinematic bike displays using **Cinemachine**.

SDE - Unity Dev

Dec 2021 - Aug 2022

GetMega, Bangalore

- Ported multiple games to Unity.

Assistant SE - Unity Dev

Sep 2020 - Dec 2021

NCore Games, Bangalore

- Contributed to a side-scrolling musical game (**TAPPI**).
- Worked on a **F2P multiplayer shooter game (FAUG)**.
- Assisted with gameplay systems, UI, and optimization tasks.

Unity Developer

Dec 2019 - Sep 2020

Bibox Labs, Bangalore

- Developed an electronic simulation application using Unity.
- Integrated **image recognition** and **cloud-based APIs**.

Education

Diploma in Game Developing

Jun 2018 - Jul 2019

Asian Institute of design, Bangalore

Game Programming - Self

2017 - 2018

Internet, Youtube, Brackeys

Btech in E.E.E

2013 - 2017

College of Engineering Payyannur, Payyannur, Kerala

Diploma in EEE

2009 - 2012

Govt. Polytechnic, Kannur, Kerala

Japanese

Hobbies

- Game developing, 3D printing, IOT, Electronics
